Chronicles of purpose, passion and progress

Muni Seva Ashram

Dear friends and well-wishers,

Another season has passed at Goraj, and with it, another quiet testament to what compassion can build when it is patient and unhurried. In our wards, our classrooms, our fields and our homes for the elderly, the same simple faith continues to guide us — that every life, however humble its circumstance, deserves dignity, care and the chance to flourish.

This issue of Anusandhan brings you a glimpse of that work: the children finding their footing in our schools, the patients who walked into our hospitals with fear and left with hope, the elders and women who have found in us not charity, but family.
None of this would be possible without you — our donors, volunteers, and friends near and far. Thank you for continuing to walk this road with us.

In service,

Dr Vikrambhai Patel
Chairman, Muni Seva Ashram

Kailash Cancer Hospital & Research Centre (KCHRC) has received two advanced diagnostic systems — an Endoscopic Ultrasound (EUS) machine and an Endobronchial Ultrasound (EBUS) machine

Sponsored by **Polycab Social Welfare Foundation**. This generous contribution significantly upgrades KCHRC's ability to diagnose and stage cancer accurately, and with minimal discomfort to patients.

How it helps

Endoscopic Ultrasound (EUS) allows doctors to closely examine the digestive tract and surrounding organs, including the esophagus, stomach, and pancreas, using a thin, flexible scope fitted with an ultrasound probe. It enables precise, needle-guided sampling of suspicious growths without the need for open surgery.

Endobronchial Ultrasound (EBUS) works on the same principle for the chest. It lets doctors examine the lungs and the lymph nodes around the airways, guiding a needle to collect tissue samples from areas that would otherwise require a more invasive surgical procedure.

Why This Matters for patients

- *Faster, more accurate staging. Both machines let doctors determine exactly how far a cancer has spread before deciding on treatment — critical for planning surgery, chemotherapy, or radiation.*

Chronicles of purpose, passion and progress
Muni Seva Ashram

Why This Matters for patients

Cond . . .

- *Fewer invasive procedures. Many biopsies that once required surgery can now be done through these scopes, meaning shorter hospital stays and quicker recovery.*

- *Better-informed tumour boards. With sharper staging data, KCHRC's multi disciplinary teams can make more confident, coordinated treatment decisions.*

- *Stronger capability across cancer types. Together, the two machines extend KCHRC's reach across both gastrointestinal and thoracic (lung) cancers — two of the most common cancer groups treated at the centre.*

A Word of Thanks

Muni Seva Ashram and KCHRC **Extend heartfelt gratitude to Polycab Industries for this thoughtful and impactful contribution.** Equipment of this caliber directly translates into earlier, more accurate diagnoses — and for cancer patients, that difference in time and precision can be life-changing.

Dr Samarth Chhatbar & Dr Vama Agrawal organized a program at Polycab on World no Tobacco day.

KCHRC Had conducted a Breast Feeding week awareness campaign to create awareness about the benefits of breast feeding to the baby as well as mother.

A World Class hospital *is defined by its ability to merge hyper specialized technology with compassionate, seamless patient delivery. A general hospital can administrate basic chemotherapy. Elite oncology institutes globally are distinguished by several foundational pillars.*

1) Multi disciplinary Tumor Boards: Our Multi disciplinary board consists of surgical, medical, and radiation oncologist and genetic counselors, who review each complex case collectively.

2) Best in Class Radiation and Surgical Infrastructure: Image guided radiation therapy (IGRT). These technology decimate cancer cells while heavily sparing neighboring healthy tissues.

3) Integrated Molecular Diagnostics & Sub-specialization

4) Direct access to Clinical Trials & Research: We partner with research foundations and clinical labs. This allow patients who have exhausted standard protocols to gain early access to cutting edge, experimental immunotherapies, targeted drugs , and novel clinical treatments.

Accreditations: We are accredited by accreditation agencies for our hospital.

We carry out regular awareness weeks, seminars and other patient awareness programs which help the rural population understand the importance of healthy life and making them aware of the ill effects of intoxicants on our health.

A proud Moment : We're delighted to share that Mr Indravadan Parmar, from our B.Sc. Nursing, has successfully cleared the prestigious NORCET examination and will soon join as a Central Government Nursing Officer.

NORCET is conducted by the Government of India for recruitment to AIIME, ESIC, and other central Institutions. Heartiest Congratulations!!

We are happy that our Nursing Collage has a bench marking of a premier nursing institution.

1. Clinical Training & Hospital Ecosystem: Nursing is a fundamentally hands on learning depends on its clinical partnerships. Being attached to a premier Cancer Care and Multi speciality hospital like a 350 bed KCHRC.

Nursing College Hosts a Series of Expert Sessions and Awareness Programmes

The Nursing College of Muni Seva Ashram continued its commitment to holistic student development through a series of expert sessions and awareness programmes this quarter.

An expert session on sampling and data collection was conducted by Dr. Rameshwari Zala, Assistant Professor, MTIN, CHARUSAT University, equipping students with practical research methodology skills essential for evidence-based nursing practice.

This was followed by an expert session on Sickle Cell Anaemia awareness, led by Dr. Shailesh Lawana, which deepened students' understanding of the condition's diagnosis, management, and community-level prevention — an especially relevant topic given the disease's prevalence in tribal populations of the region.

The college also organised a Cyber Security Awareness Programme, helping students navigate safe digital practices in an increasingly connected world, and a Hepatitis

Awareness Programme, reinforcing knowledge on prevention, transmission, and early detection of the disease.

Together, these sessions reflect the Nursing College's continued effort to nurture well-rounded healthcare professionals — strong not only in clinical skill, but also in research literacy, disease awareness, and digital responsibility.

Students from Bakshipanch Ashramshala, Eklavya School, Vankuva performing on the joyous occasion.

young scholars receiving the Shri Chandudada Academic Excellence Award.

School Admission Ceremony and Shri Chandudada Academic Excellence Awards

Celebrating New Beginnings & Bright Futures: *There is nothing quite like the joy of watching a new student take their first steps into a classroom — and nothing quite like the pride of celebrating those who have worked hard to excel. This spirit came together beautifully at Bakshipanch Ashramshala, where the annual School Admission Ceremony was held alongside the distribution of the Shri Chandudada Academic Excellence Awards.*

Made possible by the generosity of our donors and well-wishers, this year's celebration welcomed eager new students from Bakshipanch Ashramshala, Eklavya School, Vankuva School, and the Nursing College into their educational journey, while honouring bright young scholars who achieved outstanding results in their annual examinations. For many of these children, this recognition is more than a certificate — it is a reminder that their effort is seen, valued, and celebrated.

The occasion was graced by Institution President Dr. Vikrambhai, the Honourable Secretary, the revered Sant Shri Rametiram Maharaj, and Taluka Panchayat Executive Chairman Shri Vijaybhai Patel — alongside proud teachers, staff, and parents who filled the campus with warmth and encouragement.

It is because of the continued support of our donor family that moments like these are possible — moments that plant the seeds of confidence, curiosity, and ambition in children who will carry these values forward into brighter futures.

Thank you for making this possible.

Dr. Vikrambhai and dignitaries at the felicitation ceremony.

Visit to Anu Ma Samadhi on Pujya Anuben's Birthday.

Students from Bakshipanch School visited AnuMa Samadhhi to pay respects. In a peaceful atmosphere, they bowed reverently and received blessings, learning about our traditions, culture, and the values of great personalities.

The visit was joyful, educational, and culturally enriching experience for them.

Eklavya Model Residential School for Tribal Development

Eklavya Model Residential School for Tribal Development: Under Gujarat Government's Tribal Education Society MSA has taken an initiative to run a public private partnership. This English Medium School is affiliated to Gujarat State Board, following NCERT syllabus providing our students more competitive environment at national level.

Our Students excel in sports activities and have taken part in Khel Mahakumbh run by Sports Authority of Gujarat and district lever competitions.
Looking at the sports potential of our students we built a Cricket Ground for them with practice pitches and facilities comparable to national level Cricket ground.
We have started work on Indoor Sports Complex where our kids can play games like Basketball, badminton, Gymnastics, Malkhamb, Billiards, Table Tennis, Chess, karate, and other indoor sports.

EMRS Waghodia-1, (MSA)
NEET Result (2025-26)

Sr.No.	Student Name	Obtained marks out of 720
1	Taviyad Parthkumar Rameshbhai	336
2	Ninama Vishalbhai kasubhai	308
3	Rathva Krushannan Ranglabhai	292
4	Bhuriya Vaibhav Piyushbhai	265
5	Mal Manishbhai Rakeshbhai	263
6	Taviyad Ruchikaben Vikrambhai	229

This year 16 students appeared for NEET exams and 6 students qualified. We wish them all the success.

Samsung Company organized an AI training session. During question answer session students of our school collectively won gift coupons worth Rs. 10,000.

MSA-VTC inaugurated its new AR/VR Lab

Sponsored by VOLTAS

Vocational Training Centre

Muni Seva Ashram's Vocational Training Centre continues to grow as a PPP venture with the Government of Gujarat, supported by the Development Support Agency of Gujarat (D-SAG) under the Tribal Development Department's Vanbandhu Kalyan Yojna. The past quarter has seen the Centre expand on several fronts — infrastructure, outreach, certification, and industry engagement.

On 4 August 2026, MSA-VTC inaugurated its new AR/VR Lab, sponsored by Voltas, marking a significant upgrade to the Centre's training infrastructure. Augmented and Virtual Reality technologies bring immersive, interactive learning to vocational education, allowing students to visualize technical concepts, understand industrial processes, and undergo simulated practical and safety training.

The lab will also support equipment familiarization and interactive technical demonstrations, deepening students' hands-on understanding — a valuable addition made possible by Voltas' sponsorship.

Alongside this, the Centre broadened its enrollment outreach through digital channels, partnering with two regional influencers' — Prem-YT, whose audience spans Waghodiya to Chhota Udepur, and Rakesh, reaching Dabhoi–Rajpipla to Valsad. Their promotional reels generated a strong response, helping MSA-VTC connect with a wider youth audience and reflecting the Centre's openness to innovative, youth-focused communication.

The Centre also strengthened its drone training capabilities this quarter, completing the audit requirements for the Medium Drone Licence and gaining approval as a Remote Pilot Training Organisation (RPTO) — now authorised to train for both Small and Medium Drone Licences.

Rounding off the quarter, Voltas conducted an expert lecture at MSA-VTC on 22 August 2026, attended by 12 employees and covering six key areas: 5S Training, Quality Defects, Electrical Safety, Safety, Production Training, and Excel Training — reinforcing the Centre's ongoing industry engagement and its focus on workplace efficiency and skill development.

Muni Seva Ashram

With Gratitude — And an Invitation

Any support to Muni Seva Ashram , big or small, becomes care, dignity, and hope for someone in need.

If you're able, your continued support keeps our hospitals, programs, and services running for the thousands who depend on us.

But support isn't only financial. We warmly invite professionals from every field , doctors, engineers, educators, designers, legal and financial experts, and more, to volunteer their skills and time in service of this mission.

Your expertise, offered freely, can be as transformative as any donation. Every contribution, of funds or of expertise, is met with our deepest gratitude.

Every financial support comes with an 80G-compliant receipt.

U.S. supporters can give through MUNI SEVA CHARITABLE FOUNDATION USA (MSCF), an IRS-approved 501(c)(3).

To donate or offer your services, visit www.greenashram.org.

Thank you
for being part of this journey
of compassion and service.
